I have to stop playing when I run out of chips and I find it very frustrating, and it's also hard to get enough chips to try harder crosswords that cost 35, 40 or 50 chips...? For more information, please refer to the developer's privacy policy. It was great at first, we were making the giant and getting coin options to make one and get gems as a reward UNTIL we started to get halfway then they stopped (I want you to buy them) He just did a crossword puzzle where his clue was undo and the answer was LOOSED (terrible crosswords) which is not a word in the dictionary, this isn't the first time either, they have some beauties as an answer. It's very rare to win chips now, which is frustrating, and watching 5 videos for 5 chips a day is a long process, but I will persevere! The chips are the only reason I deducted 1 star. But I can't find another crossword puzzle game that's a little fairer...!! But I will keep looking
